A[sh]WIN AUDIO*
*A handcrafted instrument offering superior tone
 with beautiful acoustics*

[AT]33

The physicist and the musician recognise the hierarchy of structures starting with quite simple elements and their underlying structures and find the elegance and beauty in them.

Simplicity is the ultimate sophistication
Leonardo da Vinci

With this in mind, the [AT]33 is designed to link the minds of the composer, performer and listener without diminishing the phrasing and expression of the artists.

Imperceptible detail in a piece of music becomes clearly distinguishable.

*Music is the mediator
between the spiritual and the sensual life*
Ludwig Van Beethoven
